MOTORS AND CONTROLLERS

MODEL	DESCRIPTION	PRICE
	MAX MOTOR WITH INTEGRATED BATTERY FOR MAX Available exclusively for the MAX blind, minimum width 80 cm. Motor with electronically programmable limit switches via remote control, with the option to set a third intermediate limit switch; simple and intuitive programming via remote control buttons. Integrated 5.2 Ah lithium-ion battery, with an indicative range of up to 180 cycles per single charge (new battery) and a tested service life of approximately 200 charge cycles. Battery life depends on usage conditions, thermal stress, blind dimensions, fabric weight, and long-term degradation; values are therefore indicative.	ON REQUEST
	POWER ADAPTER FOR MAX MOTOR WITH INTEGRATED BATTERY Dedicated charger for the lithium battery of the MAX motor with integrated battery. To be added to the cost of the motor.	ON REQUEST
	SINGLE-CHANNEL REMOTE CONTROL FOR MAX MOTOR	ON REQUEST
	15-CHANNEL REMOTE CONTROL FOR MAX MOTOR	ON REQUEST
	3M CHARGING CABLE FOR MAX MOTOR WITH INTEGRATED BATTERY Optional dedicated charging cable for the MAX MOTOR, length 3 metres.	ON REQUEST
	SOLAR PANEL FOR MAX MOTOR WITH INTEGRATED BATTERY Photovoltaic module for autonomous recharging of the MAX motor battery, without mains connection. NOTE: the panel may not be sufficient to compensate for the energy used by the motor during operation.	ON REQUEST
	SMART WI-FI INTEGRATED MOTOR FOR BIG Available exclusively for the BIG blind, minimum width 70 cm. Motor with integrated Wi-Fi connectivity for remote control via App and home automation systems, with no need for external control units. 	ON REQUEST
	SINGLE-CHANNEL REMOTE CONTROL	ON REQUEST
	15-CHANNEL REMOTE CONTROL	ON REQUEST
