

iBOX 150 CS | FOR BIG BLIND

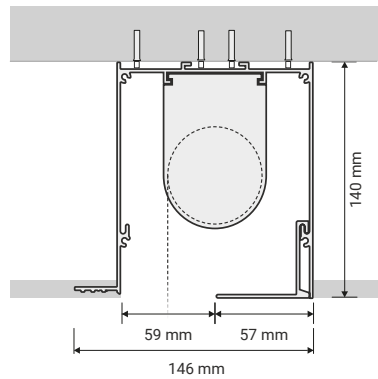

FOR BIG BLIND ONLY
MAXIMUM DIMENSIONS - W300 X H300 cm

RECESSED HEADBOX FOR BIG ROLLER BLINDS

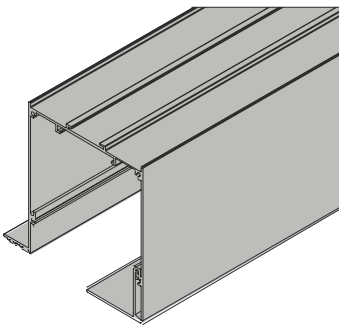

iBOX 150 CS is the recessed headbox for BIG roller blinds, designed for total integration into plasterboard false ceilings. A clean architectural solution that eliminates all visible elements, leaving only light and fabric. The white painted aluminium profile houses the roller, creating an elegant floating blind effect that drops directly from the ceiling — no visible frames or headboxes. Ideal for high-end residential and contract environments.

TECHNICAL DETAILS
